

The prayer **אֵין כְּאֱלֹהֵינוּ** has sometimes been called a blessing machine. Why might this be? (See page 1 of your prayer module).

Make the vending machine below work by completing the circuit - running electricity from the outlet! There are some gaps in the wire.

Below each gap is the English meaning of a word from the prayer **אֵין כְּאֱלֹהֵינוּ**. Find the Hebrew for these words in your prayer module, and write them as wires in the gaps above the English.

This will complete the circuit.
